OBJECTIVE: Software Engineer

ABSTRACT

I am passionate about turning ideas into reality through code. With more than 12 years of experience in the IT area, I acquired several soft and hard skills during the various projects in which I participated. Currently, I'm focused on the Back end and tools involving the cloud and DevOps. I have experience with a variety of technologies including JavaScript, TypeScript, Node.js, Java, Spring Boot, AWS, Docker, database, etc. I participated in several projects following agile methodologies, implemented tests and monitored applications. Graduated in Information Systems from UFF, I completed a postgraduate degree in Java Development.
